⚠ Scanned PDF blobs: 0 — framework recommends ≥ 3 for Scanned Document Blindness coverage. Currently zero test cases exercise OCR-only inputs.

COVERAGE GAPS

2 gaps · 1 high · 1 medium

Auditor-identified — must be resolved before Release Gate proceeds

—

No scanned PDF blobs registeredHIGH PRIORITYLINKS → FML

ingestion.scanned\_document\_blindness failure mode has zero test coverage. Add minimum 3 scanned-source test cases (image-only PDFs with no extractable text layer) so OCR fallback path is exercised. View failure mode in library →

Owner · Ingestion team Effort · ~4h Blocks gate · yes Related · T-05 · S1 ingest

Add to Backlog →

⚠

Safety cases 1% under targetMEDIUM PRIORITY

Suite contains 14% safety cases vs. 15% target. Add 2 safety test cases before gate proceeds. Recommend covering C-Safety / PII Leak and C-Safety / harmful-tone sub-contracts.

Owner · Trust & Safety Effort · ~1h Blocks gate · soft Related · C-Safety contracts

HOLD

AUDIT VERDICT

2 gaps must close before gate

Coverage shape is within tolerance; gap is in media-blob breadth and safety quota. Estimated total effort ~5h · re-audit on push.
